

Photography Statement Toneelgroep Twister

Photographs and video containing members and friends might be taken during Toneelgroep Twister's activities. It is the association's responsibility to protect your privacy. This statement is to inform you of where this imagery might be posted or uploaded. These terms apply to the services provided by Toneelgroep Twister. Toneelgroep Twister ensures the imagery is handled confidentially. This photography statement is subjected to change. The members, friends and donors will be notified with a minimum of two weeks before these changes are made official. They have the right to object to these changes within these two weeks.

1 Permission

It is possible to give permission for the making and using of imagery, as described below, on the registration form or by reporting this to the current board. This permission may always be revoked later, also partially depending on purposes, as described below.

2 Website

Imagery created during activities may be uploaded to Toneelgroep Twister's site. The imagery will be accessible for all who visit our website, under the header Gallery. The imagery uploaded to the website will be selected, so nobody will come out in a negative way. Members and friends have the right to object to the uploaded material via the board, after which the imagery will be removed. Imagery will remain on the site for 3 years. After this it will be stored on a hard disk in the archive for an indefinite period.

3 (Social) media

Photographs and video material can be used on Toneelgroep Twister's public Facebook page or other social media, like Twitter and Instagram. Members and friends who are identifiable on the imagery will always be asked for permission beforehand if the imagery will be visible for more than 24 hours. For imagery which will be accessible for less than 24 hours, permission will only be asked in case of doubt about the imagery and/or the permission of the members and friends on there. All imagery will be selected so nobody will come out in a negative way. Objections can be presented to the board after uploading to Social Media, after which the imagery will be removed. Photographs can also be used in the newsletter.

4 Board Pictures

Board pictures will be uploaded public to the website, including the names of all board members. This purpose will be made clear at the time of taking said photograph. A board member is free to choose whether they want to be in this photograph. Objections can be made after the photographs have been uploaded, after which they will be removed from the website.
